INTERNATIONAL JOURNAL OF CLIMATOLOGY, VOL. 13 931–935 (1993)

REFERENCE INDEX VOLUME 13 1993

1 Ahmed, R. & Karmakar, S. (1993): Arrival and withdrawal dates of the summer monsoon in Bangladesh., 13, 727–740.

2 Amanatidis, G.T., Paliatsos, A.G., Repapis, C.C., & Bartzis, J.G. (1993): Decreasing precipitation trend in the Marathon area, Greece., 13, 191–201.

3 Anyadike, R.N.C. (1993): Seasonal and annual rainfall variations over Nigeria., 13, 567–580.

4 Bacon, S. & Carter, D.J.T. (1993): A connection between mean wave height and atmospheric pressure gradient in the North Atlantic., 13, 423–436.

5 Bastable, H.G., Shuttleworth, W.J., Dallarosa, R.L.G., Fisch, G., & Nobre, C.A. (1993): Observations of climate, albedo and surface radiation over cleared and undisturbed Amazonian forest., 13, 783–796.

6 Begum, D.A. (1993): Climatological study of the total ozone field around the subtropical jet stream., 13, 915–921.

7 Beltrando, G. & Camberlin, P. (1993): Interannual variability of rainfall in the Eastern Horn of Africa and indicators of atmospheric circulation., 13, 533–546.

8 Bigg, G.R. (1993): Comparison of coastal wind and pressure trends over the tropical Atlantic: 1946–1987., 13, 411–421.

9 Bonsal, B.R., Chakravarti, A.K., & Lawford, R.G. (1993): Teleconnections between North Pacific SST anomalies and growing season extended dry spells on the Canadian Prairies., 13, 865- 878.

10 Chiew, F.H.S. & McMahon, T.A. (1993): Detection of trend or change in annual flow of Australian rivers., 13, 643–653.

11 Currie, R.G. (1993a) Luni-solar 18.6- and 10–11-year solar cycle signals in South African rainfall., 13, 237–256.

12 Currie, R.G. (1993b) Luni solar 18.6- and solar cycle 10–11- year signals in USA air temperature records., 13, 31–50.

13 Currie, R.G., Wyatt, T., & O'Brien, D.P. (1993): Deterministic signals in European fish catches, wine harvests, and sea-level, and further experiments., 13, 665–687.

14 D'Abreton, P.C. & Lindesay, J.A. (1993): Water vapour transport over Southern Africa during wet and dry early and late summer months., 13, 151–170.

15 Davis, R.E., Dolan, R., & Demme, G. (1993): Synoptic climatology of Atlantic coast north-easters., 13, 171–189.

16 Davis, R.E. & Gay, D.A. (1993): An assessment of air quality variations in the south-western USA using an upper air synoptic climatology., 13, 755–781.

17 Dhar, O.N. & Nandargi, S. (1993): The zones of severe rainstorm activity over India., 13, 301–311.

18 Domros, M. & Ranatunge, E. (1993): A statistical approach towards a regionalization of daily rainfall in Sri Lanka., 13, 741–754.

19 Drake, F. (1993): Global cloud cover and cloud water path from ISCCP C2 data., 13, 581–605.

20 Drosdowsky, W. (1993a) An analysis of Australian seasonal rainfall anomalies: 1950–1987. I:spatial patterns., 13, 1–30.

21 Drosdowsky, W. (1993b) An analysis of Australian seasonal rainfall anomalies: 1950–1987. Temporal variability and teleconnection patterns., 13, 111–149.

22 Duarte, M.L. (1993): Temporal variations of the vertical profile of temperatures of Argentina., 13, 437–445.

23 Fontaine, B. & Bigot, S. (1993): West African rainfall deficits and sea surface temperatures., 13, 271–285.

24 Gadgil, S., Yadumani, & Joshi, N.V. (1993): Coherent rainfall zones of the Indian region., 13, 547–566.

25 Gordon, A.H. (1993): The random nature of drought: mathematical and physical causes., 13, 497–507.

26 Huth, R., Nemesova, I., & Klimperova, N. (1993): Weather categorization based on the average linkage clustering technique: an application to European mid-latitudes., 13, 817–835.

27 Jacovides, C.P., Kallos, G.B., & Steven, M.D. (1993): Spectral band resolution of solar radiation in Athens, Greece., 13, 689- 697.

28 Jones, P.D., Hulme, M., & Briffa, K.R. (1993): A comparison of Lamb circulation types with an objective classification scheme., 13, 655–663.

29 Jury, M.R. & Levey, K. (1993): The climatology and characteristics of drought in the eastern Cape of South Africa., 13, 629–641.

30 Jury, M.R., Pathack, B., & Waliser, D. (1993): Satellite OLR and microwave data as a proxy for summer rainfall over sub-equatorial Africa and adjacent oceans., 13, 257–269.

31 Knappenberger, P.C. & Michaels, P.J. (1993): Cyclone tracks and wintertime climate in the Mid-Atlantic region of the USA., 13, 509–531.

32 Kożuchowski, K.M. (1993): Variations of hemispheric zonal index since 1899 and its relationship with air temperature., 13, 853- 864.

33 Leathers, D.J., Mote, T.L., Kuivinen, K.C., McFeeters, S., & Kluck, D.R. (1993): Temporal characteristics of USA snowfall 1945- 1946 through to 1984–1985., 13, 65–76.

34 Legates, D.R. (1993): The effect of domain shape on principal components analyses: a reply., 13, 219–228.

35 Lough, J.M. (1993): Variations of some seasonal rainfall characteristics in Queensland, Australia: 1921–1987., 13, 391- 409.

36 McGregor, G.R. (1993): A preliminary assessment of the spatial and temporal characteristics of human comfort in China., 13, 707- 725.

37 Murata, A.M. (1993): Monthly-mean temperature anomalies in relation to spatial scale in Japan., 13, 329–341.

38 Nicholson, S.E. & Palao, I.M. (1993): A re-evaluation of rainfall variability in the Sahel. Part I. Characteristics of rainfall fluctuations., 13, 371–389.

39 Nunez, M. (1993): The development of a satellite-based insolation model for the tropical western Pacific Ocean., 13, 607–627.

40 Opoku-Ankomah, Y. & Cordery, I. (1993): Temporal variation of relations between New South Wales rainfall and the Southern Oscillation., 13, 51–64.

41 Périard, C. & Pettré, P. (1993): Some aspects of the climatology of Dumont d'Urville, Adélie Land, Antarctica., 13, 313–327.

42 Pitman, A.J., Durbidge, T.B., Henderson-Sellers, A., & McGuffie, K. (1993): Assessing climate model sensitivity to prescribed deforested landscapes., 13, 879–898.

43 Rhoades, D.A. & Salinger, M.J. (1993): Adjustment of temperature and rainfall records for site changes., 13, 899–913.

44 Richman, M.B. (1993): Comments on: 'The effect of domain shape on principal components analyses'.., 13, 203–218.

45 Rogers, R.F. & Davis, R.E. (1993): The effect of coastline curvature on the weakening of Atlantic tropical cyclones., 13, 287–299.

46 Rowe, C.M. (1993): Global land-surface albedo modelling., 13, 473- 495.

47 Sumner, G., Ramis, C., & Guijarro, J.A. (1993): The spatial organization of daily rainfall over Mallorca, Spain., 13, 89- 109.

48 Suppiah, R. (1993): ENSO phenomenon and 30–50-day variability in the Australian summer monsoon rainfall., 13, 837–851.

49 Swaid, H. (1993): Urban climate effects of artificial heat sources and ground shadowing by buildings., 13, 797–812.

50 Verseghy, D.L., McFarlane, N.A., & Lazare, M. (1993): Class - A Canadian land surface scheme for GCM's, II. Vegetation model and coupled runs., 13, 347–370.

51 Wilby, R.L. (1993): The influence of variable weather patterns on river water quantity and quality regimes., 13, 447–459.

52 Yu, B. & Neil, D.T. (1993): Long-term variations in regional rainfall in the south-west of Western Australia and the difference between average and high intensity rainfalls., 13, 77- 88.
